Subject: RE: 210 W. Slauson - Projected Schedule

Hi Jim,

Does this mean we are good to go for Monday/Tuesday drilling at 216 Slauson? If we have to cancel this again, I don't think I can line up contractors for several weeks.

Thanks.

Brett Bowyer, P.G.

All,

This will confirm that my clients Solis and Mr. Lebow's clients Devores have agreed to the terms of the Site Access Agreement. The Agreement is being signed by the Solis and Devores and we should have a signed agreement for you in the next few days.

Hello,

I believe the parties have agreed to all the terms in the access agreement and that it is in the process of being signed. As a result, we would like to confirm that the field work associated with the EPA and RWQCB approved workplan will begin on Monday (June 17th). If you have any question or comments, please do not hesitate to call.

Thank you.

Subject: 21- W. Slauson - Projected Schedule

Greetings,

Our projected schedule for investigation and remediation activities is attached. This represents our current projections and is subject to change based on a variety of issues. We will keep everyone updated as changes to this schedule occur.

As you will see, we are tentatively scheduled to implement the approved investigation activities starting next Thursday. This is dependent upon finalizing the access agreement with the property owner at 216 Slauson and removal of the solid waste materials. We will provide an update regarding these two pre-requisite activities next Tuesday and at that time we will either confirm the Thursday start date or provide a revised schedule.

If you should have any questions or comments on the projected schedule, please do not hesitate to contact me directly.

Thank you.
